

6th Nov 2009

To Whom It May Concern,

After the flooding in Morpeth throughout September 2008, PRESS Electrical carried out the rewiring of the premises. The work they carried out was completed on time and of an exceptional standard. They currently carry out all maintenance and service work to all our electrical systems, fire alarm, intruder alarm and CCTV systems alongside minor electrical repairs. Their after sales service is efficient and courteous. I would have no hesitation in recommending PRESS Electrical to anyone requiring a highly skilled, reliable company to carry out their electrical work.

Yours faithfully,

A handwritten signature in dark ink, appearing to read "W Durning", is written over the typed name.
