Re: P.R.E.S.S. Electrical Contractors

The above contractors have solely, for the past 16 years, carried out electrical installations and maintenance for us.

They have been engaged in fairly major installations aswell as routine maintenance work and have always met deadlines and responded promptly to call outs. The work they have carried out has always been of high standard, competant and completed with the minimum of disruption. The nature of our business occasionally requires "out of hours" service and they have also provided this with excellence.

Their invoices are detailed and accurate and I have no hesitation in recommending P.R.E.S.S. to others.

G.R.Rutherford
